Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: group I (claims 1-2, 11-12, 21-22, 31, 38-39) is directed to a method for recommending a radio station based on user's preferences under one or more environmental conditions, group II (claims 1, 3-4, 11, 13-14, 21, 23-24, 31, 38-39) is directed to a method for recommending a content or product based on user's preferences under one or more environmental conditions, group III (claims 1, 5-6, 11, 15-16, 21, 25-26, 31-33, 38-39) is directed to a method for recommending an item based on location preferences of a user, group IV (claims 1, 7, 11, 17, 21, 27, 31, 34, 38-39) is directed to a method for recommending an item based on weather preference of a user, group V (claims 1, 8, 11, 18, 21, 28, 31, 35, 38-39) is directed to a method for recommending an item based on motion preferences of a user, group VI (claims 1, 9-10, 11, 19-20, 21, 29-30, 31, 36-37, 38-39) is directed to method for recommending an item based on a set of rules and a decision tree recorded in a profile.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 11, 21, 31, 38, 39 are generic.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim

Art Unit: 2685

is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
